

EU Info Point Nis

EU INFO POINT NIS

In March 2014, the City of Nis and the EU Delegation to Serbia signed the Memorandum of Understanding on the establishment of the EU Info Corner in Nis. The Information Corner in Nis was temporarily located on the first floor of the Business and Commercial Center Kalca, and the EU Info Point, with its new premises in Vozdova Street, was officially opened in May 2016.

The Info Point of the European Union in Nis (EU Info Point Nis) is available to the citizens of Nis and South East Serbia who want to get to know more about the European Union and its institutions and relations between Serbia and the

EU. The goal of the EU Info Point is to bring the European Union and the European integration process closer to the citizens and inform them of EU support to Serbia. Visitors can get answers to questions about opportunities for education, professional advancement and travel to the EU. Information can be obtained on-the-spot or via the Internet and social networks. EU Info Point offers brochures, books and publications about the EU. It also organizes debates and forums on European interactions and relations between the EU and Serbia, exhibitions dedicated to EU-funded projects, cultural events and the promotion of study opportunities in EU countries. The EU Info Point is open daily for individual and group visits (which should be booked in advance).
