The representatives of the Traffic Safety Agency donated 20 seats for children of the members of the Association of Persons with Disabilities and the Association of War-Disabled War Veterans. The introductory lecture was held in which the common obligation of all segments of the society to take care of the safety of children in traffic was emphasized. For this reason, the mission of the entire society, and especially parents, is to show children in a comprehensible way what safety is, because it is a prerequisite for their happy childhood.
